PRELIMINARY AMENDMENT

Please amend the above application as follows to conform the specification with U.S. practice.

In the Abstract

Please add the following Abstract (also attached on a separate sheet at the end of this preliminary amendment):

-- An organic light-emitting device comprising a light-emissive organic layer (8) interposed between first (4) and second (12) electrodes for injecting charge carriers into the light-emissive organic layer (8), at least one of said first and second electrodes comprising a plurality of layers including a first electrode layer (10) having a high resistance adjacent the surface of the light-emissive organic layer (8) remote from the other of the first and second electrodes, said first electrode layer (10) comprising a high-resistance material selected from the group consisting of a mixture of a semiconductor material with an insulator material, a mixture of a semiconductor material with a conductor material and a mixture of an insulator material with a conductor material. --

In The Claims

Please delete claim 59

Please amend the claims as follows:
